Education

PhD in Mathematics, University of Kansas 2026-Present
Lawrence, KS

MA in Mathematics, University of Kansas 2026
Lawrence, KS

BS in Mathematics, Buena Vista University 2024
Storm Lake, IA

Publications

Research Interests: Analysis of Partial Differential Equations, Numerical Analysis

1. S. J. Armstrong, G. Chen, T. Huang, and Y. Shen. *Regularity of Structurally Stable Cusp Singularities for Two Systems of Quasilinear Wave-type Equations*. Submitted. arXiv:2609.12926

Selected Presentations

3. *Generic Regularity and Singular Behavior for a Generalized Hunter-Saxton Type Equation*. Workshop for Research and Workforce Development in Fluid Mechanics II, Lincoln, NE, 2026.

2. *Structurally Stable Singularities for a Generalized Hunter-Saxton Type Equation*. University of Kansas Differential Equations, Dynamical Systems & Geometric Analysis Seminar, Lawrence, KS, 2026.

1. *An Introduction to Physics-Informed Neural Networks*. University of Kansas Math Graduate Student Organization Seminar, Lawrence, KS, 2025.

Service

Math Graduate Student Organization President 2026-2028
University of Kansas

Analysis Study Group Leader 2026
University of Kansas

MSAM Math Competition Volunteer 2026
University of Kansas

First-year Graduate Student Mentor 2025-2027
University of Kansas

Math Graduate Student Organization Member-at-Large 2025-2026
University of Kansas

Awards

U.G. Mitchell Graduate Summer Scholarship 2026
University of Kansas

Teaching Experience

Math 127: Calculus III (Lab Instructor)	Fall 2026
Math 146: Calculus II, Honors (Teaching Assistant)	Spring 2026
Math 126: Calculus II, Enhanced (Instructor)	Spring 2026
Math 115: Business Calculus I (Instructor)	Spring 2025, Fall 2025
Math 104: Precalculus (Online Instructor)	Summer 2025
Math 101: College Algebra (Teaching Assistant)	Fall 2024
